Shanghai DENP Industrial Co.,Ltd

Content

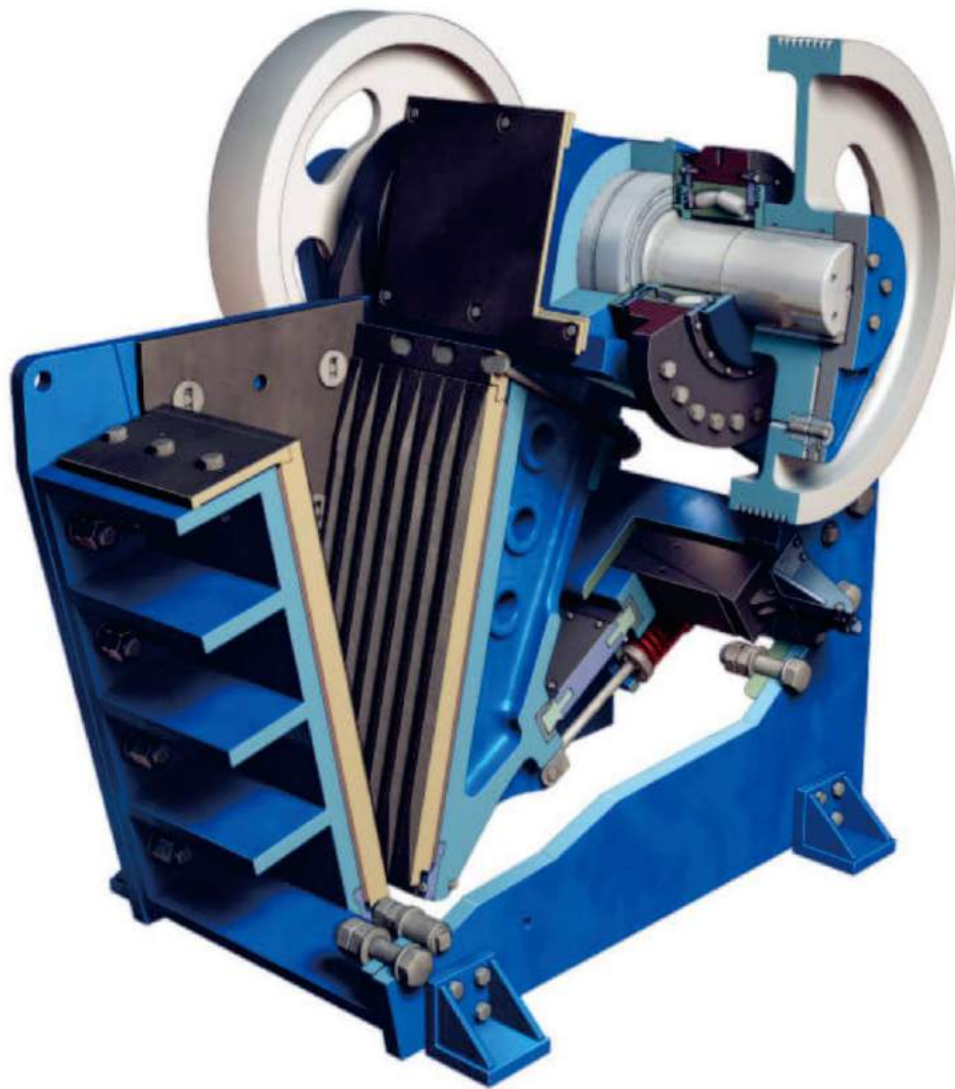

Shanghai DENP Industrial Co., Ltd is focus on high manganese steel casting and high chrome steel casting for stone crushers more than 30 years. It is located in Jinhua city, Zhejiang Province with an area of three 2,500m² of crusher parts workshops, have 83 workers. Our castings includes jaw plate, concave, mantle, side plate, impact plate, blow bar, hammer head and so on. And the production capacity is nearly 9500 tons per year, and the castings can reach to 6 tons per single piece. We have more than 8 years' experience supply the high quality steel castings to UK, RUSSIA, FINLAND, UAE etc. , and nearly 5 years' experience as the mainly supplier of a famous USA crusher factory, also, we have more than 10 years' experience export to Sri Lanka, Indonesia, South Africa, Colombia, Brazil, etc.

"Better quality, Better service! " is our principle. We are sure we will be your good partner here use our quality products and best service, and getting progress together.

Introduction	01 - 04
Jaw crusher spare parts	05 - 09
Cone crusher spare parts	10 - 13
Impact crusher spare parts	14 - 17
Metal shredder spare parts	18
Vertical shaft impact crusher parts	19 - 20
Ball mill spare parts	21 - 24
Other spare parts	25 - 32

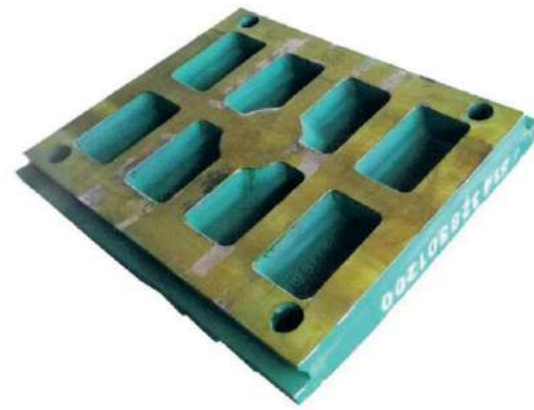

Jaw crusher is a primary crushing machine in the crushing plant. The wearing parts of jaw crusher are mainly the movable jaw plate, fixed jaw plate, cheek plate and toggle plate.

Denp Jaw plate is manufactured with High Manganese steel of Mn14, Mn18, Mn22, or other customized material. Through special heat-treatment process and With special chemical composition, jaw plate has a service life 20-30% longer than those of traditional high manganese steel!

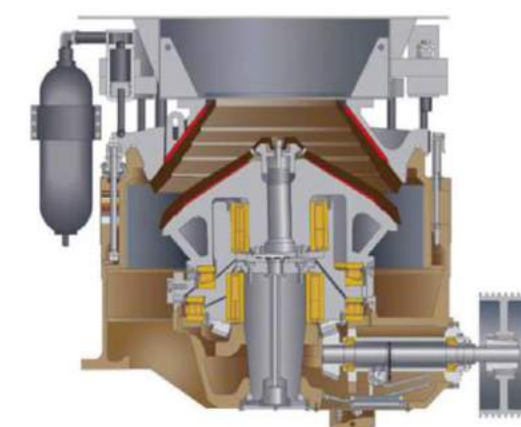

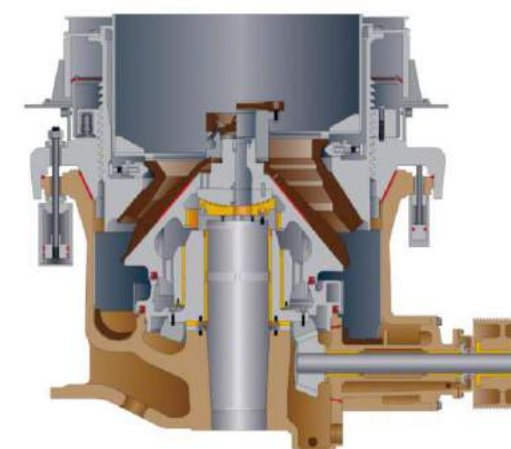

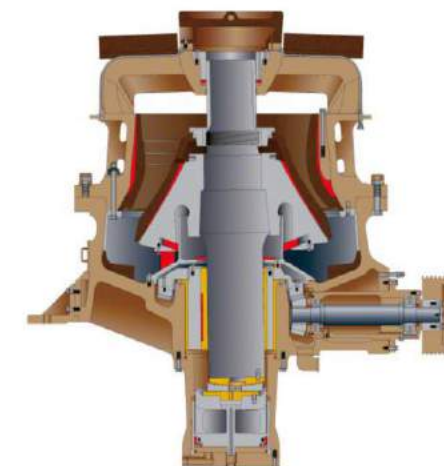

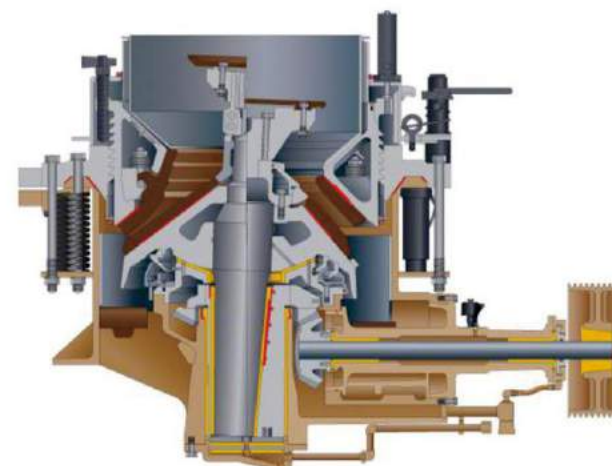

As per the customers feedback from all over the world, the good performance of our jaw plates in different working condition greatly decreased the time of examination&repair and use-cost.

Jaw crusher spare parts

Cone crusher spare parts

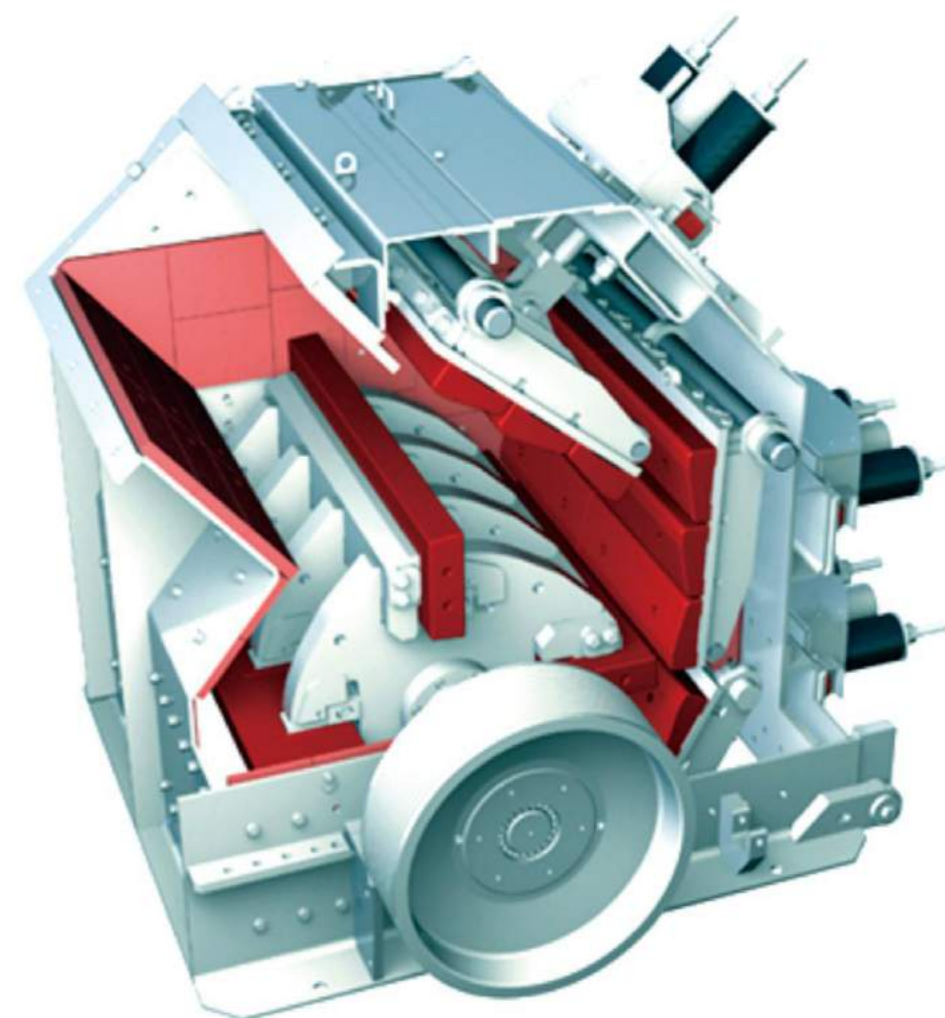

When it comes to replacement cone crusher parts, Denp has been crushing the market for decades. If you demand the peace of mind that comes with ISO 9001-certified, fully-guaranteed and warranted replacement parts for your cone crusher, your search ends with Denp Industrial – Your Replacement Cone Crusher Parts Super Store. Denp manufactures replacement components of many brand crushers all over the world. The material of Denp concave and mantle: Mn14, Mn18, Mn22, Through special heat-treatment process and With special chemical composition, Denp cone concave& mantle has a service life 20-30% longer than those of traditional high manganese steel!

Cone crusher spare parts

Impact crusher spare parts

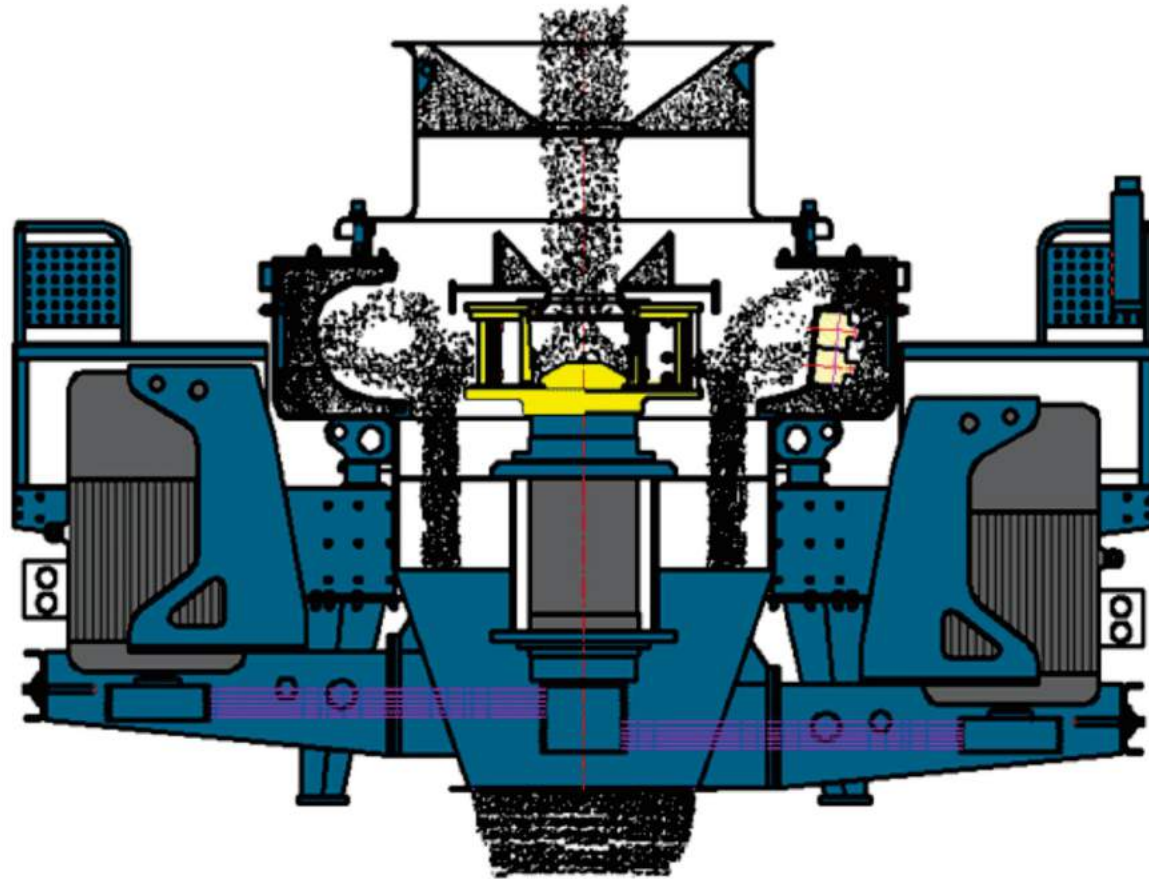

Impact crusher is widely used in the industry of road construction, building, construction waste recycling, etc. The output material is cubic and suitable for railway and high way construction. The main parts are blow bar (impact hammer), impact plate and liner plate. Denp machinery produce high quality impact crusher parts including blow bar, impact plate and liner plate. Our blow bars are in material as follow: Cr26, Cr20, Our impact plate and side plate use high quality Mn13, Mn18 as the raw material. After special heat-treatment process, the hardness of Denp blow bar reach to HRC58-65 and working life 15-20% longer!

Impact crusher spare parts

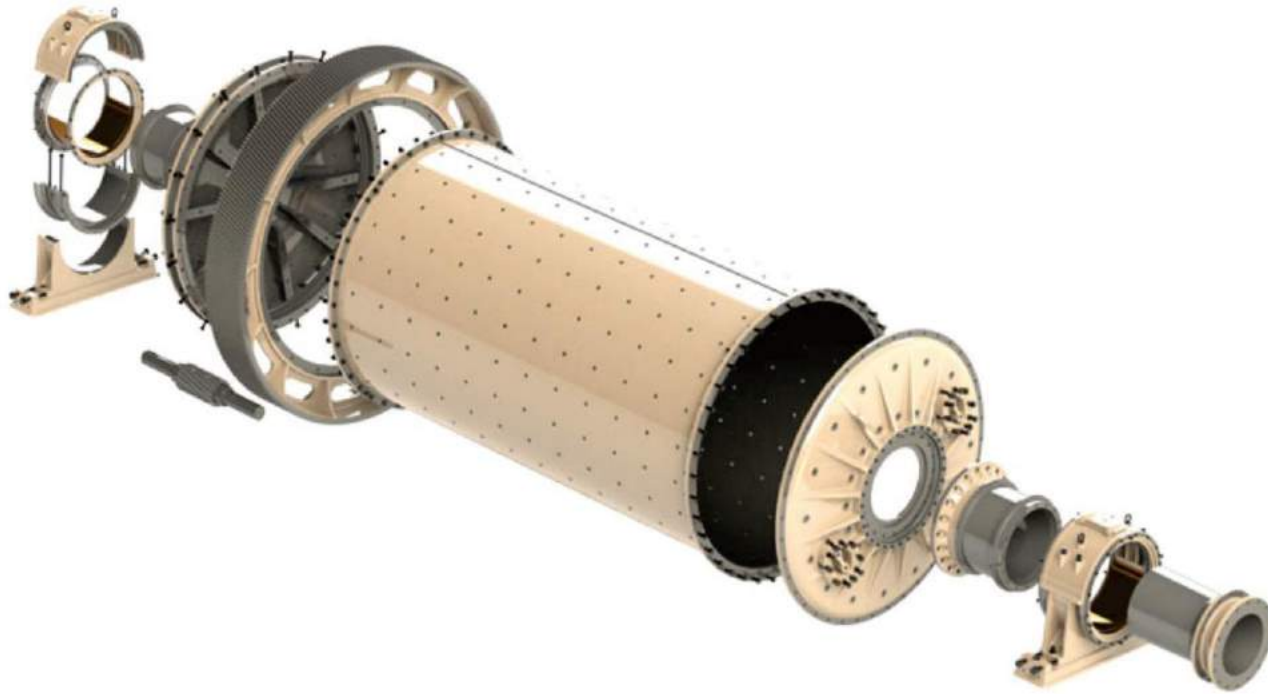

Metal shredder spare parts

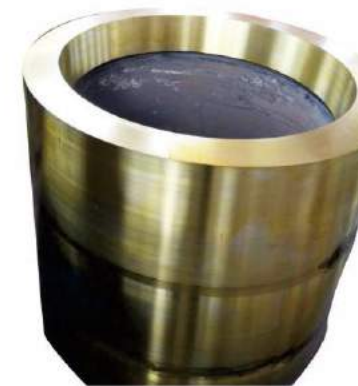

The VSI sand maker, also known as the vertical shaft impact crusher, has replaced traditional equipment, such as the hammer crusher, roll crusher, rod mill, etc. DENP can make the mainly wear parts for the VSI sand maker and quality feedback very well. Our material have Cr26 and Mn14. All the wear parts use the best steel as the raw material to make sure it's higher quality. And the most important is we have various of VSI sand maker wear parts. And our VSI sand maker wear parts can match almost all of the famous brand VSI crusher in the whole china.

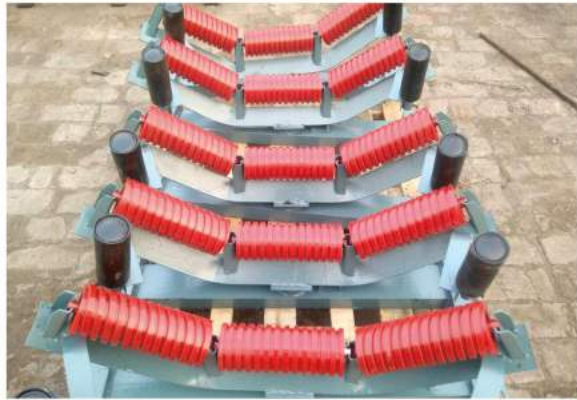

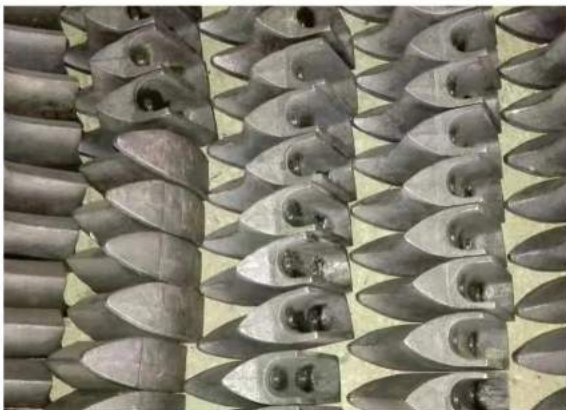

We produce the cast grinding ball / cylpeb in 3 types: High Chrome, Media Chrom and Low Chrome Alloy. It is suitable for dry grinding ball mill, used in cement, brick making, construction material making and mining. The size ranged from 10mm to 140mm, with high hardness, low breakage and good wear-resistance. All the grinding media provided by Denp backed with the ISO 9001 Certificate and shipped only after passing our quality control procedures.
